HOW TO OPEN A NEW SECURED BANK CREDIT CARD:

Your current credit scores should not prevent you from opening this new line of credit. You will be opening a Secured Credit Card which will require you to make a deposit of **\$300** in order to secure your credit line. Within a 6 month period your secured line of credit should be rolled into a regular Visa or MasterCard. By opening this new account you will be re-establishing your credit standing. Make certain you make all payments within 30 days and you can be assured of a new beginning to a good credit history.

You may choose a Credit Union or Banking Institution of your choice to open this new secured credit card. Make certain the institution reports to all 3 National Credit Bureaus.

*****Remember you are opening two separate cards to achieve the above results*****
